## **PUBLIC NOTICE**

### **REVIEW OF ARCON PROJECT REGISTRATION NUMBER (APRN) CHARGES**

The Architects Registration Council of Nigeria (ARCON) hereby informs all registered architects, architectural firms, and stakeholders in the built environment that the **14th Council**, at its **7th Meeting held on Tuesday, 27th January 2026**, approved the review of the **ARCON Project Registration Number (APRN) charges**.

The approved review represents a **100% increase across board** on the existing APRN rates and **takes immediate effect**. The revised charges apply to all project categories, including landscaping, residential developments, housing estates, and commercial/institutional buildings, in line with the Council's approved APRN classification framework.

This review is informed by prevailing market realities, rising operational and regulatory costs, increased logistics and monitoring requirements, and the need to strengthen the Council's capacity to effectively regulate architectural practice and project delivery nationwide. The Council appreciates the understanding and cooperation of members of the profession and stakeholders as it continues to uphold professional standards and protect public interest.

Kindly be guided accordingly.
